

# Fisher® Type P539A Actuator for Type N550 Emergency Shutoff Valves

**The Choice for Your Snappy Joe®**

## Type P539A Pneumatic Actuator\*

Provides the control needed for your Fisher® Type N550 Snappy Joe® Emergency Shutoff Valve. Designed to prevent over-stroking of the valve while delivering full valve capacity, the Type P539A is the only design proven to meet Fisher specifications for valve performance and reliability. Use of alternate manufacturers actuator design may cause damage to the valve and void the valve warranty. Easy Installation. Durable Construction. Reliable Performance. Why take a chance with someone else's actuator on your Fisher Valve?

\*Valve shown not included

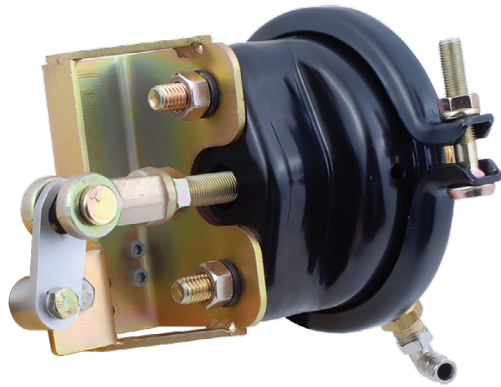

## Superior service and support

With the most complete line of LP-Gas Equipment in the industry, Fisher's worldwide distribution network includes an experienced sales and support team consisting of more than 2,000 technical experts available to serve you from nearly 200 offices throughout the world. For product integrity, reliability, safety, and performance — and a level of support no other supplier can equal — call on Fisher to help you meet even your toughest challenges.

Type P539A

## Specifications:

**Pressure Source:** Air, Nitrogen

**Minimum System Pressure:** 20 psig (1,38 bar)

**Maximum Working Pressure:** 30 psig (2,07 bar)

**Recommended Pressure Limits:**

20 to 25 psig (1,38 to 1,73 bar)

**Temperature Limits:** -40° to 150°F (-40° to 66°C)

**Return Mechanism:** Internal Spring, No Air

**Thermal Release:** 1/4-inch NPT in Actuator Housing

**Thermal Release Melt Point:** 212°F (100°C)

## Features:

- Designed and Calibrated for Fisher® Valves to deliver full capacity with no valve over-stroke to promote increased Type N550 service life
- Plated Steel Bracket Construction
- Corrosion Resistant, Automotive Grade Hardware
- 212°F (100°C) Thermal Fuse Element
- 1/4-inch (6,35 mm) Air Supply Line Quick Connect Fitting
- Easy Installation, Retrofit of Type P327C
